January News

On the calendar, you will notice "1/2 birthdays". What is a ½ birthday? In January and February, we celebrate ½ birthdays. Those are the birthdays for kids born in July and August (as we cannot celebrate with them during the summer). If your child has a July or August birthday, we will celebrate their ½ birthday with him/her in our classroom.

in our classroom, we frequently use movement songs to break up our day. a website that we have been using is www.gonoodle.com. check it out at home and encourage your child to keep moving!

In Science we will begin learning about Winter and the Five Senses. In Social Studies, we are focused on Groups, Communities and Rights and Responsibilities.

Remember to practice the Dolch words (flashcards) at home on a regular basis.

Winter is now officially here (although the weather is so nice). If the weather changes, please ensure your child is dressed appropriately for the weather. It is more fun at recess if they are bundled up and warm.

In Language Arts we are focusing on improving our writing by adding more details and descriptive words and including punctuation.

In Math will start learning about subtraction within 10 and subtraction strategies. We will also expand our number sense as we practice numbers to 100.
